National CSI
NationalCSICamp.org

FINGERPRINTING

S.T.E.M.

Students will learn general problem-solving skills and see how physics, geometry, triangles, algebraic math and science disciplines relate to solving a crime scene. After the classroom lecture, students will process a mock murder crime scene by collecting evidence using up-to-date techniques and methodologies learned. Designed to challenge students while having fun solving the crime, the class is taught by current and/or retired law enforcement detectives. Visit NationalCSICamp.org to learn more.
